

### PSAV Redistribution Summary

PSAV Presentation Services is an expert in event technology and support. In 2010, Cory Payne of PSAV was looking for a way to demonstrate that this organization could be more than just a service provider for event technology, and could actually take a role in contributing to local communities through the innovative Green Standards program.

Green Standards Ltd is an emerging new organization that assists businesses looking to do the right thing with their No Longer Needed assets. These assets are kept out of the landfill, and donated through the Green Standard Charitable Network to deserving community organizations.

**This is a great relief to the global environment, as well as a deep benefit to the under-resourced charitable community. Thank you PSAV for being a Green Standards 'Partner in Sustainability'.**

This solution saved the planet from **Green House Gases like CO<sup>2</sup> and methane**. Diverting these assets from landfill was equivalent to a reduction in CO<sup>2</sup> emissions from:

-  **80 Gallons of Gasoline not consumed,**
-  **30 Propane Cylinders not being used,**

**This is the same as 18 seedlings grown for 10 years!**

**Assets recycled** were processed to achieve the following results:

-  De-manufacturing to recover base materials;
-  Removal of hazardous materials;
-  Recycling of hazardous materials within North America.

**Assets donated** are enriching the livelihood of two community organizations with unique missions.

Maison des Amis helps serve youth that find themselves in economic hardships or in need of social assistance.

CCP, a non-profit theatre group provides low cost, quality entertainment accessible by all.

*"[PSAV's] donation will be of use to us. The rest of the items will be sold at a low price [which] with the money that will be made, it will directly go to pay expenses and the purchase of supplies for our soup kitchen [which]... It is for a good cause of homelessness and people in difficulties, which is our mission...We thank-you for your donation of office supplies!"*

– Marie Breault, Director, Maison des Amis

*"...[CCP is] extremely grateful for your donation...We have a passion for the arts, and make every attempt to provide the best form of entertainment possible... a donation like the one we received from PSAV is invaluable to us...[this donation] has allowed [CCP] to explore new possibilities for our...productions... We cannot express our gratitude enough! [CCP] could not continue to improve and grow without contributions such as yours, and we thank you from the deepest part of our hearts. PSAV is now considered a valued friend!"*

– Mack Flynn, Sound Designer and Head of Audio, CCP

**Green Standards provided a true maximum benefit and thanks PSAV Presentation Services for choosing us to support Corporate Social Responsibility commitments.**
